FOR TEACHERS
WISHING TO
DEVELOP THEIR
EDUCATIONAL
PRACTICES

HEPL - CAMPUS
GLOESENER

6, Quai Gloesener
4020 Liège, Belgium

FOR MORE INFORMATION, CONTACT UNIGREEN@HEPL.BE

WHY JOIN ?

As a teacher, dive into an immersive program dedicated to sustainable development and its practical integration into education.

Understanding the issues to take better action

Explore current sustainable development challenges and grasp the essential role of education in the ecological transition.

Sustainably integrate the SDGs and green skills

Through experts and practical tools, learn how to integrate the Sustainable Development Goals and enhance your students' green skills.

Supporting students in a changing world

Discover how to calmly address eco-anxiety, meet basic human needs, and support your students in the face of environmental challenges.

Take action with concrete and inspiring tools

Leave with resources that can be immediately used in your courses and on your campuses.

Presentations from recognized experts to clearly understand climate and societal challenges.

Practical teaching tools to easily integrate the SDGs, green skills, and sustainability into your courses.

A network of committed teachers to share best practices and create new synergies.

Support for students' emotional challenges, including eco-anxiety, with practical approaches.

Engaging field activities, such as tree planting, to experience sustainability in a way that goes beyond the classroom.

Inspiring collaborative workshops to exchange ideas, discover initiatives, and leave with ready-to-use solutions.

Highlights

What's the plan ?
