

1. *Mathematical approaches for assessment and classification on the European Union member states based on the average yield of vegetables for the period 1961-2014*
N. Keranova, Agricultural Science and Technology, vol. 9, No 3, 2017, pp 223-226
2. *Mathematical approaches for study and analysis of the land market in Bulgaria*,
N. Keranova, Science Journal “Economics and Finance”, Perspectives of research and development, 2017, pp 95-99
3. *Application of a single-factor analysis for assessing and analyzing the ecological valence of the average yield of some agricultural crops in Bulgaria from 2001-2015*,
N. Keranova, Science & Technologies, vol. VII, No 6, 2017, pp 1-6
4. *Data modeling in the agricultural sector in Bulgaria, related to the breeding of some farm animals for the period 2000-2014*
N. Keranova, Journal of the Technical University – Sofia, Fundamental Sciences and Applications, vol. 21, Book 2, 2017, pp 403-406
5. *Mathematical methods for estimating the average yield of spinach in member states of the European Union for the period 1961-2014*
N. Keranova, Journal of the Technical University – Sofia, Fundamental Sciences and Applications, vol. 21, Book 2, 2017, pp 399-402
6. *Mathematical methods for assessment and analysis of honey yield data for Bulgaria and the European Union for the period 1961-2014*
N. Keranova, Agricultural Science and Technology, vol. 9, No 4, 2017, pp 347-350
7. *Using mathematical methods for grouping the regions of Bulgaria according to the average yield of some agricultural crops from 2001 to 2015*
N. Keranova, Scientific Works of the Union of Scientists in Bulgaria - Plovdiv, XV, (2017): 4-7
8. *Mathematical approach for studying the influence of the shape index of turkey eggs and their mass on some incubation indicators*,
N. Keranova, P. Hristakieva, M. Oblakova, Agricultural Sciences, IX (22), (2017): 75-82
