

THE TITLE SHOULD BE PRECISE AND CONCISE, UP TO 100 CHARACTERS

First Author¹, Second Author¹, Third Author², Fourth Author³

Abstract: Dear authors, please write your articles directly in this template. Please do not remove the blank line between the title and the authors; as it defines the footnote. The Abstract should state the objectives, main results and a short conclusion. The maximum Abstract length is 1000 characters including spaces. Tables, graphs, schematics or figures are not allowed in the Abstract. Do not include references in the Abstract. Up to five key words separated by commas should be provided.

Keywords: first, second, third, fourth, fifth key words

Introduction

Original research articles should comprise: Abstract, Keywords, Introduction, Materials and methods, Results and discussion, Conclusion, and References.

The maximum length of the article, including tables, graphs and figures, should be up to 8 pages of the ISO B5 (17.6 × 25 cm) document.

The article should be typed in Palatino Linotype (Latin), font size 10, Single space, justified alignment, Indent of first line: 0.6 cm (Format→Paragraph→Indents and Spacing→Special→First Line 0,6), margins: Top 3.3 cm, Bottom 3.2 cm, Left 2.6 cm, Right 2.5 cm, Format ISO B5 (17.6 × 25 cm). The maximum article length is 8 pages of this format.

The title, authors' names and subtitles should be aligned to the centre (centre alignment). Use justified alignment in the list of references. Do not use page numbering.

The title should be in **CAPITAL LETTERS** font size 11, bold, indicated in the first line of this format.

Authors (first names and surnames) – *lowercase letters*, font size 11, *italic*.

The ORCID identifier should be displayed as the full iD URI in the footnote after affiliation for every author.

Subtitles – **lowercase letters**, font size 10, bold. Blank lines should be used for spaces (font size 10), as follows: before and after a subtitle, between the title and authors' names, between authors' names and affiliations, before table captions and after tables. Do not use Tab to indent the first line of a section/paragraph in the text.

SI units, symbols and abbreviations should be used. Other common units such as tonne (t), hectare (ha) etc. are allowed. The units should be written as in the following examples: kg ha⁻¹, grain number per spike, t ha⁻¹ etc. Biological names of species should be written in *italics* (*Zea mays* L.).

Materials and methods

References should be cited by indicating the author's surname and year of publication, the same for a single author (Author, 2008), two authors (Author1 and Author2, 2009) or more than two authors (Author1 et al., 2004). Also, references can be cited in a different manner, e.g. in a sentence when direct citations are used – Author's surname (2008).

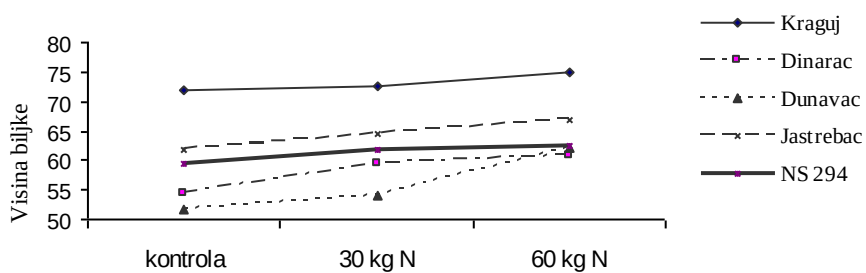

Results and discussion

Tables, graphs and photographs (black and white, high contrast) should be included in the text (Table 1). Table numbers and table captions should be written above the tables. Line Weight ½ should be used to separate the contents of the tables. The text in the tables should be written using Font size 9.
